

Eurachem is a network of organizations in Europe, having the objective of establishing a system for the international traceability of chemical measurements and the promotion of good quality practices. It provides a forum for the discussion of common problems and for developing an informed and considered approach to both technical and policy issues.

### Invitation for scientific contributions

Participants are invited to submit abstracts for proposed oral and poster presentation on subjects related to the theme of this workshop. Abstracts will be presented according to the format available from the event website. Proposed abstracts will be subject to approval by the Scientific Committee.

The scientific events will create the opportunity for ample discussions and exchange experiences during various of working group sessions.

You are cordially invited to the Scientific Workshop “*QUALITY ASSURANCE ELEMENTS FOR CHEMICAL ANALYSES LABORATORIES IN THE UNIVERSITY CURRICULUM*”, which will be held in Bucharest, Romania at University Politehnica of Bucharest, between 25 and 29 May 2020.

These scientific events will take place in connection with the EURACHEM GENERAL ASSEMBLY 2020 meetings.

The events aim to present scientific contributions on Quality Assurance (QA) for an analytical laboratory which is an essential tool to ensure good comparability of data. Therefore processes are monitored and performance problems are systematically solved.

We will discuss how the adherence to QA guidelines, participation in inter-laboratory studies, use of reference materials (RM) and certified reference materials (CRM) which are means of achieving good data quality for determinations are found in the university curricula.

Bucharest, as other European capitals, was established on the banks of a river, named Dâmbovița.

Known for its wide, tree-lined boulevards, glorious Belle Époque buildings and a Reputation for the high life (which in the 1900s earned its nickname of "Little Paris"), Bucharest, Romania's largest city and capital, is today a bustling metropolis.

One of the emblematic public institutions in Bucharest is the Polytechnic University. The University Politehnica of Bucharest is a leading academic centre and a significant point of reference in society.

The University Politehnica of Bucharest is rich in history and has been actively contributing to the development and modernization of Romanian education, science and culture since 1818.

We invite you to join us and discover an amazing City while connecting with the vivid scientific Atmosphere specific for Eurachem meetings.
