SUPPORTING ORGANISATIONS

PROFICIENCY TESTING IN ANALYTICAL CHEMISTRY, MICROBIOLOGY AND LABORATORY MEDICINE

Current Practice and Future Directions

IN CO-OPERATION WITH

WINDSOR
UK
25TH – 28TH
SEPTEMBER
2023

Hosted by

EURACHEM, IN CO-OPERATION WITH CITAC AND EQALM, CORDIALLY INVITE MEMBERS OF THE INTERNATIONAL ANALYTICAL COMMUNITY TO THEIR 10TH PROFICIENCY TESTING WORKSHOP, WHICH AIMS TO CONTINUE THE SUCCESS OF PREVIOUS WORKSHOPS. THE WORKSHOP IS BEING ORGANIZED BY THE EURACHEM PROFICIENCY TESTING WORKING GROUP.

LOCATION

The workshop will take place at the De Vere Beaumont hotel in Windsor, a town on the River Thames in southeast England, just west of London. It is home to Windsor Castle, a residence of the British Royal Family, built by William The Conqueror in the 11th century. The story of De Vere Beaumont Estate in Old Windsor is a very British one; a tale of democracy, royalty, education and religion. At its heart, sits an 18th-century mansion, a chapel, 75 event spaces and a Georgian white house in 40 acres of parkland grounds. The original house was built for Lord Weymouth but it was during its time as a public school, from 1854 - 1967, that saw most of the estate's architectural developments.

TECHNICAL PROGRAMME

Four days will be devoted to training courses, invited lectures, short communications, poster sessions and working group discussions. The official language of the Workshop will be English. As in previous workshops, proposed abstracts will be subject to approval by the scientific committee and amended where necessary to improve English expression. Invited lectures and accepted communications/posters will be considered for publication as full papers in an issue of Accreditation and Quality Assurance (Springer Verlag), subject to peer-review.
